## Vice-Chairman of State Administration Council Deputy Prime Minister Vice-Senior General Soe Win Attends and Delivers a Speech at Meeting 4/2023 of Illegal Trade Eradication Steering Committee

The Illegal Trade Eradication Steering Committee held its 4/2023 Work Coordination Committee at the Nyilarkhan Hall of the Ministry of Commerce in Nay Pyi Taw on 27 July, and it was attended by the Vice-Chairman of the State Administration Council (SAC) Deputy Prime Minister Vice-Senior General Soe Win, in his capacity as the Chairman of the Committee. During the meeting, the SAC Vice-Chairman delivered an address as follows:

- During the period from January 2022 to June 2023, the approximate value of seized illegal commodities amounted to K127.054 billion in 7,011 cases, registering a significant increase when compared with the previous years. But, the illegal trade did not decline and also still exists.
- According to the statistics on Myanmar-Thai trade from May 2022 to April 2023, the statistics of Thailand mentioned the export value worth US\$2.932 billion but

Myanmar statistics for import value, US\$1.293 billion, which showed US\$1.639 billion differences. So, it can be reviewed that these would be illegal trades within a year.

- Based on the country's conditions, the presence of border areas still need security in the country due to the large number of illegal crossing points and illegal routes along the long border lines, and staff strength who involve in anti-illegal trade activities and corruption. As illegal commodities still flow into the country due to the weakness of such conditions, it is necessary to check and seize illegal commodities at warehouses and markets.
- The illegal trade and natural resources smuggling business still exist in the country so that the special task forces on anti-illegal trade activities are urged to effectively curb illegal trade, and take legal action against them.

- The teams should check the trade centres, checkpoints and security gates in the relevant regions and states to ensure that there were no bribery and unnecessary delays. If a bribery case is exposed, persons at all levels involved in it will be dealt with severe punishment.
  - The officials have to strictly supervise the functions of checkpoints and security gates not to commit bribery cases.
  - In reviewing the seizures in June 2023, according to the reviews on commodity groups, the monthly balance of the seizures amounted to K11.816 billion and the vehicle group K7.822 billion, exceeding K4.254 billion rather than the previous month but seizures of agricultural produce, timbers, raw materials, personal goods, foodstuffs and live animals declined.
  - The officials concerned are urged to implement the e-lock system that enables to check the containers, closed vans and commodity transport as quickly as possible.
  - If the ICT technology and X-ray machines will be used in inspecting the commodities rather than manual inspection, it will help increase seizure volume and contribute to smooth trade process without wasting time. As such, the Customs Department needs to observe searching and inspection processes of neighbouring countries and international community to improve the process at home.
  - Some developed countries use some staff in trade process on a wider scale due to betterment of the techniques.
  - It is necessary to check and ban illegal trade goods to be taken action at border regions and trade routes as well as warehouses and markets.
  - Chairmen of special task forces and departmental officials have to specially supervise unacceptable costs and delay measures at the gates along the trade routes.
  - It is also necessary to replace staff strength with modern machinery as quickly as possible. In combating illegal trade, special task forces and one-stop service (OSS) departments need to cooperate with each other.
- Therefore, those present at the meeting reported on their respective sectors of the combating illegal trade while the leader of the task force read out the draft resolution of the 4/2023 committee meeting. Later, the SAC Vice-Chairman Deputy Prime Minister coordinated the reports and discussions, following the meeting successfully finished.
