## State Administration Council Information Team Leader Maj-Gen Zaw Min Tun Provides Updates on the Situation in Myanmar

The State Administration Council (SAC) Information Team Leader Maj-Gen Zaw Min Tun provided explanations of extensive propaganda by the Western media based on the research papers of the USIP (United States Institute of Peace) organization, which is backed by the US government; friendly bilateral ties and cooperation between two armed forces and the two countries of Myanmar and China; the ongoing armed conflicts on 27 and 28 November; and alarm campaigns taking advantage of the situation in the northeastern region of the country as follows –

- Western media is making extensive propaganda based on research papers of the USIP (United States Institute of Peace) organization, which is backed by the US government to deteriorate the ongoing conflicts in Myanmar.
- They are openly interfering in Myanmar's

affairs to escalate the armed conflicts with presumptions that armed organizations and individuals creating the conflicts are united under the same objective without becoming bandit-like groups.

- However, the presumptions are found contrary to reality as there is certain incoherence inside the armed groups. The so-called NUG/CRPH terrorist group even announced their objection to some armed groups.
- Their presumptions are to pour oil on the flames because they ignore the cycle of narcotic drug dealing and holding arms of MNDA insurgents, and it shows the clear interferences of Western countries and their partners in the current conflicts in Myanmar.
- Three naval vessels from the People's

Liberation Army Navy together with around 700 personnel are now in Myanmar for a goodwill visit and maritime security exercises. They also held discussions for the exercises.

- It was found that the so-called president of the NUG terrorist group said words that might harm the China-Myanmar bilateral relations. We are good neighbouring countries maintaining close and friendly relations. China and Myanmar have also been strategic partners in Pauk-Phaw relations following the five principles of peaceful coexistence throughout the times.
- TNLA group stationed at the places of non-military targets, used the local communities as human shields and fought against the Tatmadaw. They also spread propaganda as if their casualties were civilian victims killed by the Tatmadaw.
- PDF terrorist group members brutally beheaded a high school teacher from Aung Pan Chaung village of Yesagyo township. The entire population must object and condemn such inhumane acts of terrorism.
- There were engagements at (105) mile border trade post in Muse, Konekyan, Laukkai, Monesee and See Kaw areas in the northern part of Shan State. Moreover, clashes at a prison and State cultural building in Kayah State, and Pauktaw, Tron Ai and Nonebu security outposts in Rakhine State. Moreover, so were the clashes at the Yayswar outpost in the Northwest Command area. In the above-mentioned engagements and clashes, terrorists attacked the targets by using drones to drop bombs and firing improvised rockets.
- Terrorist groups are spreading rumours and propaganda as if they are on the winning side in the current situation of the country.

The Maj. Gen. also added that the Tatmadaw is safeguarding the lives and properties of the people as well as the sovereignty and lands. However, the terrorist groups' attacks using public buildings and local communities as covers clearly imply the direct destruction of lives and properties of people and the State-owned and public-owned buildings.
